Category Descriptions

Dessert Salad
Knock our socks off with a molded creation Grandma would be proud of.

Savory Salad
Gelatin isn't just for dessert! This category is for salads where primary flavors are savory.

Your Family's Salad Recipe
Let's face it, there is always that one salad that has to be at every family holiday. Whatever it is, we need to see it. Even better if you have a photograph of the salad at a family function!

Nailed It! Best Ooops You Tried
Just because you bought the mold doesn't mean you can get it out of the mold. This category is for salads that didn't turn out as expected. We still want you to bring it!

Gelatin as Art
This category is for displays that are meant to be viewed but not eaten.
